

Nosodes

Here is another explanation of a nosode which I also mentioned in class:
<https://homeopathyplus.com/q-what-is-a-nosode/>

If you begin to dig deeper into nosodes, you will hear them compared to vaccines often because there is a practice in homeopathy where you use homeopathy to proactively prevent contracting diseases in place of vaccines. I have not done that, nor think it is necessary, and there is a lot of debate on it's effectiveness as you can imagine.

Other Products Mentioned

- This is the Bioplasma (all 12 cell salts in one tablet) product mentioned in class on Saturday.
